Re: M/PI's all-new TechNet Solutions™

At Media/Pro, we are committed to offering cutting-edge coverage in all of our specialty E&O lines of business – Media, Miscellaneous Professional, Technology and CyberLiability. We are excited to announce TechNet Solutions™ – our unique new policy combining the benefits of CyberLiability and Technology insurance.

TechNet Solutions™ combines and expands coverage for cyber and technology risks by:

- Providing one comprehensive form to address all cyber and technology interrelated activities
- Broadening copyright and trademark coverage to include piracy and unfair competition
- Adding coverage for the Insured's advertising services
- Offering the availability of a sub-limit for regulatory actions

Since 1979, M/PI has been a leader in the development of innovative E&O coverage solutions. In fact, we introduced the first-of-its-kind CyberLiability policy in 2000. If you have any questions about our new TechNet Solutions™ form, please don't hesitate to contact one of our Cyber/Tech underwriters listed on the back of the enclosed product enhancement sheet. You should also feel free to contact me or our Cyber/Tech Product Manager, Roxanne Westfall, at 816-292-7236.

Sincerely,

Mary J. Schust
Chief Underwriting Officer

P.S. In addition to our new TechNet Solutions™ form, our revised Miscellaneous Professional Liability Insurance (MPLI) policy was released in October, 2006, and we are currently working on revisions to our Media Liability policy and the creation of other new innovative products. We also specialize in providing excess coverage with respect to all lines of business that we underwrite on a primary basis.
